Physics BS, Engineering Physics Emphasis

Physicists strive to understand the fundamental nature of the forces and particles, and the resultant states of matter, that make up the physical world. Our Engineering Physics degree provides a grounding in this approach with an added emphasis on practical applications. The Department of Physics and Astronomy at UMSL provides a broad-based education in the fundamental concepts of engineering physics, with the experimental and theoretical skills essential to practicing scientists. Undergraduate education in physics prepares students for both graduate study and a wide variety of professional careers in fields such applied physics and engineering.

General Education Requirements

Majors must complete the university and college general education requirements (http://bulletin.umsl.edu/generaleducationrequirements/). Any of the following courses may be used to satisfy the physical science requirement:

- PHYSICS 1099: Introduction to Physics
- PHYSICS 2111: Physics: Mechanics and Heat
- PHYSICS 2112: Physics: Electricity, Magnetism, and Optics
- PHYSICS 2112L: Electricity, Magnetism, and Optics Laboratory
- PHYSICS 2111L: Mechanics and Heat Laboratory
- PHYSICS 3200: Mathematical Methods of Theoretical Physics
- PHYSICS 3221: Mechanics
- PHYSICS 3223: Electricity and Magnetism
- PHYSICS 3231: Introduction to Modern Physics I

Also required are:

- MATH 1800: Analytic Geometry and Calculus I
- MATH 1900: Analytic Geometry and Calculus II
- MATH 2000: Analytic Geometry and Calculus III
- MATH 2020: Introduction to Differential Equations
- CHEM 1111: Introductory Chemistry I (MOTR CHEM 150L)
- ECON 2640: Microeconomics
- ECON 2650: Macroeconomics

Core Curriculum

The following physics courses are required:

- PHYSICS 1099: Windows on Physics
- PHYSICS 2111: Physics: Mechanics and Heat
- PHYSICS 2111L: Mechanics and Heat Laboratory
- PHYSICS 2112: Physics: Electricity, Magnetism, and Optics
- PHYSICS 2112L: Electricity, Magnetism, and Optics Laboratory
- PHYSICS 3200: Mathematical Methods of Theoretical Physics
- PHYSICS 3221: Mechanics
- PHYSICS 3223: Electricity and Magnetism
- PHYSICS 3231: Introduction to Modern Physics I

Total Hours: 49

Note: Students are urged to begin the calculus sequence [MATH 1800, Analytic Geometry and Calculus I] as soon as possible to avoid delays in graduation.

Students with experience in digital computer programming may be excused from CMP SCI 1250.

Engineering Physics Option

Students interested in careers in the research and development field of industry should consider this option. This program exposes the student to a basic engineering curriculum, as well as to areas of physics with industrial applications, such as electronics, modern optics, and linear analysis. At least 49 hours, but no more than 51, are required. In addition to the core curriculum, the following courses are required:

Joint Engineering

- ENGR 2310: Statics
- ENGR 2320: Dynamics

Joint Electrical Engineering

- J E ENGR 2300: Introduction to Electrical Networks

Physics

- PHYSICS 4310: Modern Electronics
- PHYSICS 4311: Advanced Physics Laboratory I
- PHYSICS 4323: Modern Optics
- PHYSICS 4331: Intro to Quantum Mechanics
- PHYSICS 4341: Thermal and Statistical Physics

Mathematics

- MATH 1320: Introduction to Probability and Statistics

Computer Science courses for a major or minor in physics may not be taken on a satisfactory/unsatisfactory grading basis.
MATH 2450 Elementary Linear Algebra 3
Select one elective in mathematics at or above the 3000 level, or 3
in a computer science at or above the 2000 level.
Total Hours 33

Program Purpose
The purpose of the B.S. in Physics (Engineering Physics Emphasis) program at the University of Missouri at St. Louis is to prepare students for a professional career in engineering, physics, or applied physics, or for graduate studies in engineering physics or a related field.

Learning Outcomes
• Students will be able to demonstrate an understanding of basic physics concepts including classical mechanics, electricity and magnetism, thermal and statistical physics, quantum mechanics, and modern electronics
• Students will be able to design and perform basic physics experiments, assess the significance of their results, and interpret the observed outcome
• Students will be able to demonstrate an understanding of statics, dynamics, and electrical networks
• Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems
• Students will be proficient in both written and oral communication of the results of scientific work
• Students will have the skills necessary for conducting original scientific research as part of a problem-solving team
• Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results

Sample Four Year Plan

First Year
Fall Hours Spring Hours
INTDSC 1003 1 MATH 1800 5
PHYSICS 1099 1 CMP SCI 1250 3
CHEM 1111 5 CORE - US History and Government 3
MATH 1035 2 EXPLORE - Social Sciences 3
MATH 1030 3
ENGL 1100 3
15 14

Second Year
Fall Hours Spring Hours
PHYSICS 2111 4 PHYSICS 2112 4
PHYSICS 2111L 1 PHYSICS 2111L 1
MATH 1900 5 MATH 2000 5
CMP SCI 1250 3 MATH 2450 3
CORE - Communication Proficiency 3 ENGR 2310 3
16 16

Third Year
Fall Hours Spring Hours
PHYSICS 3200 3 PHYSICS 3221 3
PHYSICS 3231 3 PHYSICS 3223 3
MATH 2020 3 PHYSICS 4310 3
ENGR 2320 3 J E ENGR 2300 3
Cultural Diversity Requirement 3 Humanities and Fine Arts 3
15 15

Fourth Year
Fall Hours Spring Hours
PHYSICS 4310 3 PHYSICS 4311 3
PHYSICS 4323 3 CMP SCI 2XXX Computer Science course or MATH 3XXX Mathematics course
PHYSICS 4331 3 EXPLORE - Humanities and Fine Arts 3
ENGL 3160 3 EXPLORE - Humanities and Fine Arts 3
EXPLORE - Social Sciences 3 EXPLORE - Social Sciences 3
15 15

Total Hours: 121

1 INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.
2 One of these General Education courses must also fulfill the Cultural Diversity requirement.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
