About the College

The College of Education offers a variety of programs at all levels that lead to exciting and rewarding career opportunities. It takes many types of education professionals to prepare our children, youth and adults for an ever-changing world. The College’s faculty, staff, and community partners are committed to providing experiences to build the knowledge and skills needed for individuals to be successful in multiple educational settings and occupations. These careers include teachers, principals, and superintendents for K-12 districts, schools, and classrooms; teachers and administrators for informal education organizations like museums, zoos, and nature centers; counselors and mental health professionals for schools, hospitals, corporate employee assistance programs, clinics and private settings; and postsecondary leaders and instructors for community colleges, career technical schools, and four-year colleges and universities.

The College has 44 full-time faculty, of which six are endowed professors, and two are UM-System Curator’s Distinguished Research Professors. Additionally, the College has more than 50 part-time clinical faculty who have years of direct classroom experience. The College offers six undergraduate degrees, 32 undergraduate and post-baccalaureate teaching certificates, seven Master’s degrees, many graduate certificate programs, two Educational Specialist degrees, and two Doctoral degrees. In collaboration and partnership with a vast array of educational, business and community resources, our College can provide opportunities for faculty and students to develop professional connections which will improve their careers as well as their communities.

Support Services

Student support is provided through the Office of Advising and Student Services (OASIS), 116 South Campus Classroom Building. This office contains a staff of professional undergraduate and graduate academic advisors who provide both undergraduate and M.Ed. students with the academic support they need to satisfy the requirements for state teacher certification as well as undergraduate and M.Ed. degree program requirements.

The Office of Clinical Experiences and School Partnerships, 269 Marillac Hall, houses professional staff who coordinate teacher education clinical experiences.

Accreditation

Program quality in the College of Education is recognized nationally through multiple outside professional bodies. The college is accredited by the Association for Advancing Quality in Educator Preparation and the Missouri Department of Elementary and Secondary Education for the preparation of early childhood, elementary, middle, secondary, physical, special educators, school counselors, school psychologists, principals, and superintendents. Additionally, the Council for Accreditation of Counseling and Related Educational Programs accredits our Counseling programs and the National Association for School Psychology accredits our School Psychology program.

Centers and Initiatives

The College hosts many centers and initiatives that enhance the experience of students in our programs. Among these are: the Center for Character and Citizenship; the E. Desmond Lee Technology and Learning Center; the Gateway Writing Project; the Richard Burnett Literacy Clinic; the Counseling and Social Advocacy Center; the Dr. Matthew D. Davis Racial & Social Justice Institute; and SUCCEED, a postsecondary program that supports students aged 18-25 with intellectual and developmental disabilities. We also sponsor sox charter schools within the City of St. Louis.

Course Designations in the College of Education

The following abbreviations are used to indicate instructional areas in the course listings and descriptions in the College of Education.

Teacher Education

Degrees and Areas of Concentration

Students may earn teacher certification in the fields of elementary education/special education, elementary education/TESOL endorsement, elementary education/special education/TESOL endorsement, early childhood education/early childhood special education, middle school, music education, physical education, art education, as well as the secondary education areas of biology, chemistry, English, foreign languages (French, Spanish), mathematics, physics, and social studies.

Students with a Bachelor's degree can combine educator preparation and Master's-level work in selected areas. Graduate programs leading to certification are also offered in counseling, reading, school administration (elementary and secondary principal, school superintendent), and special education.

The following certification programs are designed to provide the following learning outcomes. Upon successful completion of the programs, education candidates will:

- Continually reflect on professional growth to improve student learning outcomes and enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
Eligibility is based upon fulfillment of the following requirements: processed through the Office of Advising and Student Services (OASIS). Applications to the Teacher Education Program are All students seeking teacher certification must be admitted to the Teacher Education Program. The application can be found at Education Program.

Students admitted to the College of Education and seeking teacher degree paths will have Education as their assigned academic unit. Any students who designate education degree programs as their intended Admission to the College of Education promulgated by the Department of Elementary and Secondary Education. The Cumulative, Content Area, and Professional Education grade point averages required for admission to the Teacher Education Program at UMSL are subject to changes in grade point average requirements promulgated by the Department of Elementary and Secondary Education.

General Information

It is important that students meet with an academic advisor in the Office of Advising and Student Services once each semester. Students should contact the office at 314-516-5937 to schedule an advising appointment.

Application to Practica

The application can be found at http://coe.umsl.edu/portal. Deadlines for the Formal Application are May 31 for January Practicum I candidates, December 31 for August Practicum I candidates and August 1 for Teach in 12 certification candidates who are approved to enroll in classes in August.

Upon receipt, formal applications for both pre- and post-degree (Teach in 12) students are checked to ensure they have met the following requirements:

- Admission to the teacher education program for both pre- and post degree (Teach in 12) students.
- A cumulative grade point average of at least 2.75 or above by the semester prior to the semester in which students plan to student teach. A 2.75 grade point average must be attained in order to graduate with a B.S. in education degree and/or be certified to teach in the state of Missouri. A 3.0 grade point average must be attained in professional education courses.
- Grade point average of 3.0 in the teaching field (secondary education students only).
- A grade of C or higher in all professional education courses. Lists of these courses are available in the OASIS office and from advisors.
- Completion of TB screening, Missouri Family Care Safety Registry check, FBI check and Missouri substitute certificate.
- Undergraduate students are required to have passed all sections of the qualifying exam designated by the Missouri Department of Elementary and Secondary Education.

The Practicum II experience in art, music, and physical education provides opportunities in a variety of settings. Students will be expected to student teach on a full-day basis for 15 weeks during an entire semester. Practicum II must be completed in residence.

For further information regarding requirements and certification, contact the Office of Advising and Student Services, 314-516-5937, 116 SCCB or consult the College of Education Advising Home Page.

Application for Degree and/or Certificate Bachelor of Science in Education (B.S. Ed.)

Candidates for the B.S.Ed. degree must complete the graduation application; and undergraduate music and art students, as well as candidates interested in master's-level teacher certification must complete a certification application form in the Office of Advising and Student Services when they apply for admission to Practicum or during the semester before the one in which they expect to complete degree requirements. See information below on the state-required exit examination.

Bachelor of Educational Studies (B.E.S.)

Candidates should consult with the Office of Advising and Student Services or call (314) 516-5397 for more information. This degree offers four areas of study. It does not qualify students for Missouri Teacher Certification. Visit the Education Sciences and Professional Programs Department home page for more information.
Certification
In cooperation with the Missouri State Department of Elementary and Secondary Education (DESE), the College of Education is responsible for recommending all qualified students for state teacher certification. The curriculum usually meets all requirements for the Missouri Department of Elementary and Secondary Education (DESE) Teacher Certification. DESE requirements, however, are subject to change and additional courses beyond degree requirements may be needed to obtain certification.

All teacher education candidates must pass the appropriate Missouri Content Assessment(s) in order to satisfy the degree requirements to earn the Bachelor of Science in Education degree. This exam must be taken during Practicum I.

Latin Honors Requirements
In accordance with the University's Latin Honors policy, candidates graduating from the College of Education in the 2022-2023 Academic Year must meet the following GPA qualifications:

- Summa Cum Laude: 4.000
- Magna Cum Laude: 3.979
- Cum Laude: 3.914

Degrees and Areas of Emphasis
The College of Education offers Master of Education (M.Ed.), Educational Specialist (Ed.S.), and doctoral degrees at the graduate level. The M.Ed. degrees and the emphasis areas are:

Adult and Higher Education
- Adult Education (The College of Education is no longer accepting applications for this emphasis area)
- Higher Education

Counseling
- Clinical and Mental Health Counseling
- School Counseling

Educational Administration
- Community Education (The College of Education is not accepting applications for this emphasis area)
- School Administration

Educational Psychology

Education
- Curriculum and Instruction Emphasis
- Early Childhood Education Emphasis
- Elementary and Special Education Teacher Certification Emphasis
- Elementary Teacher Certification
- Interdisciplinary Studies
  - for Teacher Residency
  - for Temporary Authorization Certification
- Reading Emphasis
- Secondary Teacher Certification

Special Education
- Autism and Development Disabilities
- Cross Categorical Disabilities
- Early Childhood/Special Education

Ed.S. Programs
Ed.S. degree programs are available in school psychology and educational administration.

Doctoral Programs
Programs leading to the Ph.D. degree are offered in the areas of Counseling, Educational Psychology, Teaching-Learning Processes, and Educational Leadership and Policy Studies. The Ed.D in Educational Practice admits students to the thematic learning communities announced in December for study commencing the following fall.

Master of Education Degree
The Master of Education Degree programs are designed for graduates to attain the following learning outcomes:

- Understand the major theories in the discipline of study.
- Attain a solid foundation in the overall field of education in general, including areas of social justice, educational leadership and advocacy, educational psychology and research.
- Attain a depth of knowledge in the primary discipline.
- Think critically.
- Develop skills as a reflective practitioner to be able to create and sustain change.
- Conduct teacher research.

Admission and General Requirements
The College of Education follows Graduate School policies relating to admissions, academic standards, residency, transfer credit, time limitations, and thesis options (see Graduate Study in this Bulletin). In addition to meeting the general requirements of the Graduate School, applicants for counseling and educational administration must complete a separate application (see graduate studies in the Counseling Department and the Educational Leadership and Policy Studies Department pages in this Bulletin). The minimum number of hours required for the M.Ed. degree is 30 credit hours, except that the K-12 school counseling and mental health emphasis areas require 60 credit hours. The school has adopted a flexible policy on exit requirements, which are determined departmentally.

Advisement and Program Planning
Upon admission, each M.Ed. student is assigned a faculty advisor but should make an advising appointment to meet with an OASIS (College of Education Advising Office) advisor for the first semester of coursework only. A faculty advisor typically advises the student regarding registration and program planning thereafter. A program plan for the master's degree must be completed during the first semester that the student’s academic program commences. This form includes all coursework required for the academic program and the exit requirement.

Students working toward teacher certification as graduate students should complete state certification forms in OASIS (College of Education Advising Office) one year before those requirements will be completed. Just remove this sentence).
Faculty Advisor Assignment Information

All M.Ed. students will be assigned an advisor by OASIS, the College of Education Advising Office, located in 116 SCCB. If any M.Ed. student determines that an advisor assignment has not been appropriately documented in MyView, please contact OASIS (College of Education Advising Office) at 516-5937. If a student would like to change their faculty advisor assignment for any master's degree program, please contact OASIS for further information. The faculty advisor information will subsequently be updated in MyView.

Educational Specialist Degree

The Ed.S. degree is intended for school personnel preparing for a specific role, either that of a school psychologist or that of a school building or district administrator. The programs require 60 hours of postbaccalaureate course work designed to meet the respective Missouri certification requirements. The Ed.S. in School Psychology degree program requires three years of intensive, full-time training but students may be able to complete up to half of the curriculum as a part-time student. The Ed.S. in Educational Administration can be pursued on a part-time or a full-time basis and can include credits taken in an M.Ed. in Educational Administration program.

The Educational Specialist Degree program is designed for graduates to attain the following learning outcomes:

- Expand their knowledge of the major theories in their area of specialty.
- Attain a solid foundation in the field of education in general and a depth of knowledge in the specialty.
- Think critically.
- Develop skills to become a reflective practitioner.
- Mentor teachers and other practitioners as a specialist in a specific area.
- Understand research methods in education.
- Conduct research.
- Demonstrate leadership skills and attributes.

Admission and General Requirements

The College of Education follows Graduate School policies relating to admissions, academic standards, residency, transfer credit, time limitations, and exit requirements. Specific materials required for application vary by program, but generally applicants should submit an application to The Graduate School, transcripts of previous college work, and letters of recommendation.

Advisement and Program Planning

For advising and program planning, school psychology students should contact the Department of Education Sciences and Professional Programs, 469 Marillac Hall, 314-516-5944. Educational administration students should contact the Office of Advising & Student Services (OASIS), 116 South Campus Classroom Building, at 314-516-5937.

Doctor of Education Degree

The Doctor of Education program (Ed.D.) with an emphasis in Educational Practice provides an accelerated doctoral experience structured to leverage the benefits of the collaborative dissertation model and immerse students in action research as part of a cohort community.

Scholar-practitioners typically work as part of a dissertation team of two or more students to investigate a high-impact Problem of Practice (PoP). The research experience encompasses the scholarly process of conducting research and possibly collaborating with community stakeholders to review extant data related to the Problem of Practice. Students explore solutions to the Problem of Practice that impacts the local community and the educational workplace, and they also investigate national implications.

Students are admitted to the degree program and simultaneously to a Learning Community of Practice that is formed around a central theme. Learning Communities begin during the Fall semester. Members of the learning community advance through the program together as a cohort and complete the degree requirements within 3 to 3 ½ years. Students enroll in approximately 5-7 credits each semester. A collaborative Dissertation in Practice (DIP) is the culminating capstone project.

Doctor of Philosophy Degree

The Ph.D. degree in Education is designed for educators who desire directed research experiences promoting scholarly inquiry in education. Four emphases are available:

- Teaching-learning processes
- Educational leadership and policy studies
- Educational psychology
- Counseling

The Ph.D. program is designed for graduates to attain the following learning outcomes:

- Understand the major theories in their primary and secondary disciplines;
- Attain a breadth of knowledge in education in general and a depth of knowledge in the primary discipline;
- Think critically;
- Locate literature in the primary and secondary disciplines;
- Understand research methods in education;
- Conduct research; and
- Demonstrate leadership skills and attributes.
