

4 Year Plan of Study

By graduating in four years, students can reduce tuition costs and accelerate entry into the job market or advanced education compared to students who take longer to graduate.

To assist students in creating their own personal four-year academic plan, templates are provided for all BA, BFA, BM, BS, BSN, and BSW programs on the tabs above.

Through careful planning with an academic advisor, students can complement their undergraduate degree with minors or certificates and experiences such as study abroad, internships, and service learning.
