

# Civil Engineering BSCIE

## Admission

Students are admitted to the upper-division program after they have completed an acceptable pre-engineering program. The pre-engineering program can be taken at University of Missouri-St. Louis or at community colleges in the area. Normally, admission is granted to persons who have completed the pre-engineering program with a minimum grade point average of 2.5 over all their mathematics, chemistry, physics, and introductory (statics and dynamics) engineering courses. Students with less than a 2.5 grade point average, but at least a C, in all their science, engineering and mathematics courses may be admitted on a conditional basis.

For more information, please contact the program advisor at (314) 516-7018.

## Degree Requirements

A program of 132 semester hours is required for the Bachelor of Science in Civil Engineering.

Majors must complete the University General Education and Graduation requirements, the Pre-Engineering Requirements, the Core Engineering Requirements, and Major Requirements.

A minimum grade of C- is necessary to meet the prerequisite requirement for any course.

## General Education and Graduation Requirements

The following courses fulfill general education and graduation requirements and are required of Civil Engineering majors:

PHIL 2259	Engineering Ethics	3
PHIL 3380	Philosophy of Science	3
HIST 1001	American Civilization to 1865 (MOTR HIST 101)	3
or HIST 1002	American Civilization 1865 to Present (MOTR HIST 102)	
Three additional Social Science courses <sup>1</sup>		9
<b>Total Hours</b>		<b>18</b>

One Social Science course must satisfy the Cultural Diversity Requirement. Humanities and social sciences electives must meet both the University of Missouri-St. Louis General Education Requirements and the Humanities and Social Sciences Requirements of the Joint Undergraduate Engineering Program. Check with your advisor for details.

## Pre-Engineering Requirements

Students seeking to major in engineering are first designated as 'Undeclared with an interest in Engineering majors' until they have completed Math 1800 Analytical Geometry & Calculus I. ## Graduation Requirements

In addition to the requirements of the University of Missouri-St. Louis that apply to all candidates for undergraduate degrees, the student must earn a minimum campus grade point average of 2.0 and a minimum grade point average of 2.0 for all engineering courses attempted at the University of Missouri-St. Louis.

Upon completion of the program, graduates will have an ability to:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Communicate effectively with a range of audiences
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Acquire and apply new knowledge as needed, using appropriate learning strategies
