Elementary Education BSEd, Special Education and TESOL Emphasis

The Bachelor of Science in Education (B.S.Ed.) in Elementary Education prepares those who desire to teach grades 1 - 6. The core courses are combined with one of three emphasis areas: Special Education, Teaching English to Speakers of Other Languages (TESOL), or Middle School. It is also possible to select the Special Education emphasis area and take the TESOL courses for TESOL endorsement. Please see each of the Emphasis Area Requirements listed below.

Undergraduate educator preparation is both engaging and innovative. Our high quality undergraduate educator preparation programs are designed around research-based scholarship and practical community-based contexts. To prepare our undergraduate students as the highest quality educators for our region, we contribute to and harness the resources of our deep community partnerships. The community-based experiences broaden candidates' understanding of their own identity as educators as well as enhancing their ability to build relationships, extend their skills, and understand family/community dynamics and interactions.

For their final year-long practicum, teacher candidates are immersed in Studio Schools. These partnering K-12 schools participate in our innovative, collaborative approach to educator preparation. Rather than being placed as individuals with one cooperating teacher, our candidates work with multiple teachers learning from each one, this process is supported and facilitated on-site by a specially trained UMSL clinical educator who leads a weekly seminar, conducts observations and provides candidates with regular feedback to guide their growth.

The focus of candidates' work is to explore challenges of student learning, envision solutions based on their research-based coursework, recent school initiatives, and carefully studied practices, and then enact innovative solutions to increase student learning. Candidates inquire deeply into how their students are learning, and use data to inform their instruction. Teacher candidates participate in all appropriate school and district professional development and school-wide activities, thereby becoming professionals who are part of the fabric of a studio school, not a just a temporary teacher candidate. Graduating educators have experienced an innovative education which prepares them for their future career as educational leaders in our region and beyond.

The Bachelor’s of Science in Elementary Education degree prepares students to teach in elementary or middle school settings. This program requires the selection and completion of required coursework in one of the following emphasis areas: Special Education; Teaching English to Speakers of Other Languages (TESOL); Special Education and TESOL; or Middle School.

University General Education and Graduation Requirements

B.S.Ed. degree candidates must complete the following General Education Requirements and Graduation Requirements of the University as outlined in this Bulletin.

The courses listed below fulfill these requirements and best prepare students for advanced education coursework and licensure exams.

**First Year Writing**

**Program Requirements**

All students in the B.S.Ed. in Elementary Education program are required to take the following Teacher Education courses, as well as the required courses for the selected emphasis area. Each student must also complete all required courses and certification assessments as specified by the Missouri Department of Elementary and Secondary Education.

**Grade Requirement**

Professional Education courses must be completed with a grade of C or better (a grade of C- or below must be retaken).

**GPA Requirement**

Beginning with those students graduating in May 2017 who will also receive teaching certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

**Assessment Requirement**

Students must pass the required DESE certification assessments to receive the B.S.Ed. degree.

**Preparing for the Teacher Education Program**

The following courses must be completed prior to applying for admission to the teacher education program:
In addition, students must complete the following Special Education and TESOL courses:

- SPEC ED 3349 Instructional Practices in Inclusive Education
- TCH ED 3210 General Linguistics in Teaching English to Speakers of Other Languages
- TCH ED 3211 Basic Principles of Second and Foreign Language Acquisition
- TCH ED 3213 Performance-based Assessment for TESOL
- TCH ED 3214 Material Development and Methods for TESOL
- TCH ED 3224 Curriculum Development for Content Teaching of English Language Learners
- SPEC ED 4315 Language and Communication of Children with Disabilities
- SPEC ED 4342 Transition Issues and Planning

The program will culminate in the following practicum courses:

- ELE ED 4992 Practicum I: Elementary/Special Education/TESOL Site-Based Experience
- ELE ED 4993 Practicum II: Elementary/Special Education/TESOL Site-Based Experience

Total Credit Hours: 140

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse
learners to encourage all students' critical thinking, problem solving, and performance skills.
