# **Mathematics BA**

### **General Education Requirements**

All department majors must satisfy the university and appropriate school or college general education requirements. All mathematics courses may be used to meet the university's general education breadth of study requirement in natural sciences and mathematics.

### Satisfactory/Unsatisfactory Restrictions

All department majors may not take mathematical sciences or related area courses on a satisfactory/unsatisfactory basis. Students considering graduate study should consult with their advisers about taking work on a satisfactory/unsatisfactory basis.

## **Degree Requirements**

All courses of the department presented to meet the degree requirements must be completed with a grade of C- or better. At least four courses numbered 3000 or above must be taken in residence. Students must have a 2.0 grade point average in the mathematical sciences courses completed.

Students enrolling in introductory mathematics courses should check the prerequisites to determine if a satisfactory score on the Mathematics Placement Test is necessary. Placement into introductory courses assumes a mastery of two years of high school algebra.

A minimum grade of C- is required to meet the prerequisite requirement for any course except with permission of the department.

Note: Courses that are prerequisites for higher-level courses may not be taken for credit or quality points if the higher-level course has been satisfactorily completed.

Many students are qualified, as a result of having studied calculus in high school, to begin their major with MATH 1900, Analytic Geometry and Calculus II, or MATH 2000, Analytic Geometry and Calculus III. These students are urged to consult with the department before planning their programs. Credit for MATH 1800, Analytic Geometry and Calculus I, will be granted to those students who complete MATH 1900 with a grade of Cor better.

# **Declaring the Mathematics Major**

Students seeking to major in mathematics are first designated as "premathematics majors" until they have completed both MATH 1900 and MATH 2000 or equivalent courses. Upon successful completion of these two courses with grades of C or better, students will be allowed to declare mathematics as their major. Each of these courses must be completed successfully within two attempts.

# **Degree Requirements in Mathematics**

All mathematics majors in all undergraduate programs must complete the mathematics core requirements.

### **Core Requirements**

The following courses are required:

Total Hours		33
MATH 4100	Real Analysis I <sup>2</sup>	3
or CMP SCI 3130	Design and Analysis of Algorithms	
MATH 3250	Foundations of Mathematics	3
MATH 2450	Elementary Linear Algebra	3
MATH 2020	Introduction to Differential Equations	3
MATH 2000	Analytic Geometry and Calculus III	5
MATH 1900	Analytic Geometry and Calculus II	5
MATH 1800	Analytic Geometry and Calculus I	5
MATH 1320	Introduction to Probability and Statistics	3
CMP SCI 1250	Introduction to Computing <sup>1</sup>	3

1

Students in the Fiscal Mathematics program will take MATH 4200 instead.

Students in the Fiscal Mathematics program will take MATH 4210 instead.

The related area requirements as described below must be satisfied. Students seeking a double degree, either within this department or with another department, do not have to fulfill the related area requirements.

# Related Area Requirements for majors in Mathematics

Candidates for the B.A. in Mathematics must satisfy the requirements in one of the groups below with a grade of C-or better. Candidates for the B.S.Ed. in Mathematics and B.S. in Mathematics must satisfy the requirements in two of the groups below with a grade of C-or better.

If candidates choose group 2, then they cannot apply either of the two courses listed in that group towards the additional 4000 level mathematics courses (beyond the core requirements) that must be completed for each of these degrees.

Students seeking a double degree, either within this department or with another department do not have to fulfill the related area requirements.

#### **Related Area Courses**

### 1) Computer Science

Select two of the following:		6
CMP SCI 2250	Programming and Data Structures	
CMP SCI 2700	Computer Organization and Architecture	
CMP SCI 3130	Design and Analysis of Algorithms	
CMP SCI 4410	Introduction to Computer Graphics	
CMP SCI 4420	Introduction to Digital Image Processing and Computer Vision	
2) Statistics		
MATH 4200	Mathematical Statistics I	3
MATH 4210	Mathematical Statistics II	3
3) Biology		
BIOL 2102	Ecology	3
BIOL 2103	Ecology Laboratory	2
4) Biology		
BIOL 2012	Genetics	3
BIOL 4182	Population Biology	3

F) Ol ----!--

5) Chemistry		
CHEM 1111	Introductory Chemistry I (MOTR CHEM 150L)	
CHEM 1121	Introductory Chemistry II	5
6) Chemistry		
CHEM 3312	Physical Chemistry I: Thermodynamics and Kinetics	3
And another 3000-level, or a	bove, chemistry course.	3
7) Economics		
ECON 1001	Principles of Microeconomics (MOTR ECON 102)	3
ECON 1002	Principles of Macroeconomics (MOTR ECON 101)	3
ECON 4100	Introduction to Econometrics	4
8) Philosophy		
PHIL 3360	Formal Logic	3
PHIL 3380	Philosophy of Science	3
9) Physics		
PHYSICS 2111	Physics: Mechanics and Heat	4
PHYSICS 2112	Physics: Electricity, Magnetism, and Optics	4
10) Physics		
PHYSICS 3221	Mechanics	3
And another 3000 level, or a	bove, physics course.	3
11) Business Administration	on	
SCMA 3320	Advanced Supply Chain and Operations Management	3
SCMA 4350	Prescriptive Analytics and	3
30W/Y 4000	Optimization	
12) Engineering	Optimization	
	Optimization Statics	3

In addition to the core requirements and the College of Arts and Sciences' foreign language requirement, three mathematics courses at the 4000 level or higher must be completed. Of these, one must be MATH 4400, Introduction to Abstract Algebra

## B.S. Ed. in Secondary Education with Emphasis in Mathematics

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. *Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.* 

## B.A. or B.S. in Mathematics with Master's Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to

the Graduate School for Master's level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master's Degree in Secondary Education, with additional coursework. Students interested in Master's Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

### **Learning Outcomes**

A successful undergraduate should, upon completion, be able to:

- Write clear, logically consistent proofs.
- Read, understand and assess the veracity of logical arguments or mathematical proofs.
- Reformulate problems or questions in relevant mathematical terms.
- Solve problems which involve analysis, algebra or linear algebra, elementary number theory, elementary probability or statistics.
- Demonstrate basic proficiency in speaking, reading and writing in a language in addition to English.

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

1

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
